Installation Instructions
Honeycomb Shades
Cordless

Getting Started
Remove shade from package. Save packaging until shade is installed and working to your satisfaction.

Tools:
• Level
• Measuring Tape
• Pencil
• Power drill
(¼" hex driver and drill bit)
• Screwdriver

Check Component/Hardware:

Hardware Standard Quantity

Step 1: Bracket Installation
• Measure 3” from both ends of the head rail. Mark the bracket location on the mounting surface.

Inside Mount
• For Cordless, align wall to the front of brackets.
• Use two 1 1/4” mounting screws to secure brackets. Use wall anchors for drywall or plaster wall.

Outside Mount
• Align the end of brackets with the top window frame.
• Use two #8 1 1/4” mounting screws to secure brackets. Use wall anchors for drywall or plaster wall.

Step 2: Shade Installation
• Position head rail at an angle so that it is hooked to the front of the bracket. Then push it upward to snap into the bracket.

Step 3: How to Install Shade Handle
Position the handle at angle so that it is hooked to the bottom of the bottom rail. Then push it upward to snap into place.

Troubleshooting

<table>
<thead>
<tr>
<th>Problem</th>
<th>Solution</th>
</tr>
</thead>
<tbody>
<tr>
<td>The shade will not snap into the mounting brackets</td>
<td>Check if mounting brackets are aligned. Refer to Step 1.</td>
</tr>
<tr>
<td>The shade will not lift</td>
<td>Gently pull down on the bottom rail to reactivate the cordless mechanism. Repeat if necessary.</td>
</tr>
<tr>
<td>The shade stacks up unevenly</td>
<td>Lower the shade completely, then raise it up to correct it. Repeat if necessary.</td>
</tr>
</tbody>
</table>

Shade Operation

To lower the shade, gently pull down the shade on the bottom rail handle and stop at the desired location.

To raise the shade, gently raise the shade on the bottom rail handle to desired height.

Do not grasp the rail unevenly. Always lower or raise the shade in the middle or use both hands with even pressure to two handles of the rail.

Remove the Shade
For cordless, fully raise the shade.
Gently pry the bracket off the head rail with a flat screwdriver as below picture.
Remove the shade.

Cleaning the Shade
Routine cleaning will help maintain the beauty of your shade. The shade can be cleaned by using a soft brush, vacuumed with a low suction hand-held vacuum, cleaned ultrasonically (specify that a mild solution must be used and that the head rail should never be immersed in liquid), or dampen a clean cloth with a warm water and mild detergent solution to dab the spot until it’s gone (do not rub!).
