CARE INSTRUCTIONS.
Upholstered seat: Spot clean only. Vacuum or brush with a soft brush regularly, at least once a month. For spills, immediately dab with a towel dampened with club soda or distilled water. To clean, use a commercial dry foam upholstery cleaner. Follow manufacturer’s directions. Test for color fastness first on the fabric on the bottom of the seat.

Legs: Wipe with a soft, dry cloth. To protect the finish, avoid the use of all chemicals and household cleaners.

1. Connect modular sofa sections together as shown. Align clips at front and back and press sections together.
