1. Align legs with bottom. Insert bolt (A), lock washer (C), and flat washer (B). Tighten with supplied hex key. Do not overtighten.
ATTACHING UNIT TO WALL WITH ANTI-TIP KITS.

1. Determine where the unit is to be placed and mark location on the wall for the mounting bracket screw holes. They should be placed approximately 1” below the top on the back of the unit.
2. Attach the mounting bracket vertically to the wall by inserting the long screws provided through the holes in the bracket and tightening securely using screwdriver. Screws must penetrate wall studs for proper installation.
3. Next using the short screws attach the 2nd bracket to the back of the unit top.
4. Lace the nylon strap down through the brackets. Slide the thin end of the strap through the receiving end of the nylon strap. Pull to tighten tower snug against wall.

CARE INSTRUCTIONS

Hardware may loosen over time. Periodically check that all connections are tight.
Wipe with a soft, dry cloth. To protect finish, avoid the use of chemicals and household cleaners.
